# The road has met its match.

**Road Warriors rejoice.** Because now you have a computer so potent that it gives new meaning to the word "portable." The Tablet PC.

**Designed specifically to easily go places where PCs don't easily go today.** Such as meeting rooms, hallways, and the middle seat in coach. Just grab your Tablet PC from its docking station and take off.

**You can even take advantage of zero configuration wireless support** to stay seamlessly connected to wireless networks throughout the day.

Whether you're in your office, in a meeting, on a plane, or in a cab, the Tablet PC is the PC that's more powerful, mobile and versatile than ever before.

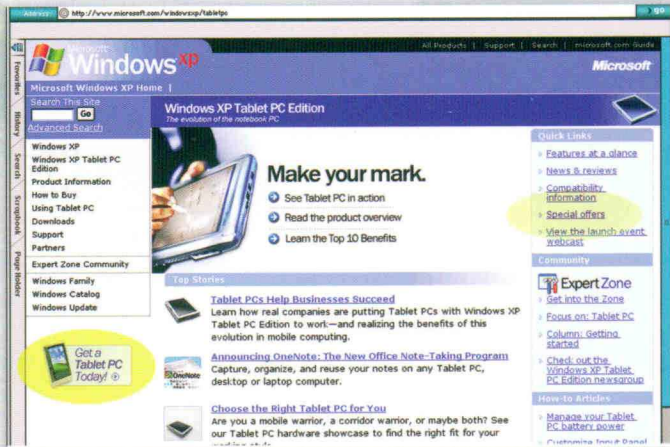

**A Tablet PC gives you all the power of Windows<sup>®</sup> XP** in a package you use like a notebook computer or with a flip of the screen, like a simple pen and pad of paper.

Only it's a digital pen and pad.

So let's say you use Office XP. Download **Office XP Pack for Tablet PC** and suddenly you're marking up Web articles, jotting notes on **PowerPoint<sup>®</sup>** slides, highlighting key points in a **Word** document, even creating and sending **e-mails** in your own handwriting. It's that simple.
